# Beneficiaries

Augie's Quest: Augie's Quest is determined to find a cure for amyotrophic lateral sclerosis (ALS, commonly known as Lou Gehrig's Disease), which affects some 5,000 Americans each year, and many more abroad. With ALS, a person loses ability to control movement. The brain remains perfectly normal, eventually trapped in an unusable body. Life expectancy is generally five to 10 years from diagnosis.

E.P.C.F.: The Employee Partners Care Foundation (E.P.C.F.) is a 501(c)3 fund established to help Employee Partners of ClubCorp's family of clubs in need of financial assistance in times of crisis. Funds for the E.P.C.F. come from Employee Partner donations, as well as private donations. The E.P.C.F. has assisted more than 800 Employee Partners and their families with grants since its inception in 2007.

YTA: Young Texas Artists is an Official Music Competition of the State of Texas and career development program for promising Texas youth. The internationally recognized program is open to classical artists, ages 18-32, who are Texas residents or are enrolled in Texas music schools. The mission of the Young Texas Artists Music Competition is to encourage excellence in young Texas musicians and to inspire their audiences, enriching the cultural life of our state.
